**NOTICE OF FILING OF
ELECTRIC RATE INCREASE AND PUBLIC HEARINGS
TO CUSTOMERS OF
ATLANTIC CITY ELECTRIC COMPANY**

**IN THE MATTER OF THE PETITION OF ATLANTIC CITY ELECTRIC COMPANY
FOR APPROVAL OF ELECTRIC BASE RATE ADJUSTMENTS PURSUANT
TO THE POWERAHEAD PROGRAM (11/2020)**

BPU Docket No. ER20110693

PLEASE TAKE NOTICE that, on November 2, 2020, Atlantic City Electric Company (“ACE” or “Company”), a New Jersey public utility, filed a Petition with the New Jersey Board of Public Utilities (“Board” or “BPU”), BPU Docket No. ER20110693, seeking the Board's approval of proposed changes to electric base rates to provide for cost recovery associated with the Company's PowerAhead program (“Petition”).

On May 31, 2017, the Board issued an Order, effective June 10, 2017, approving the Company's PowerAhead program in BPU Docket No. ER16030252. The Board Order approved up to \$79 million, plus associated Allowance for Funds Used During Construction, in investments to be recovered pursuant to a stipulated cost recovery mechanism providing for adjustments to base rates. The investments in the PowerAhead program focused on storm resiliency and hardening, grid modernization, and supported New Jersey's Energy Master Plan through energy reduction and increased deployment of renewable energy resources. The investments were to be made over a five-year period that began on the effective date of the Board Order approving the program (*i.e.*, June 10, 2017).

The Company requested that all of the rates shown below become effective for service rendered on and after April 1, 2021 (that is, the date requested in the Petition for implementation of rates). If the Board approves this request, the monthly bill for a typical residential customer (using approximately 679 kWh/month) will increase by \$0.11 or approximately 0.08%. The exact amount that your bill will increase depends upon the amount of electricity you use. A chart is included with this notice to help residential customers assess the impact of the proposed new rates on their monthly bills.

The Company filed the following changes to its existing rates with the BPU. Any final rate adjustments found by the Board to be just and reasonable may be modified and/or allocated by the Board in accordance with the provisions of N.J.S.A. 48:3-4, and for other good and legally sufficient reasons, to any class or classes of customers of the Company. Therefore, the described changes may increase or decrease based upon the Board's decision. The following table demonstrates the Company's proposed rates based upon actual data through December 31, 2020:

	Transmission General Service (TGS) < 5,000 kW	Transmission General Service (TGS) 5,000 – 9,000 kW	Transmission General Service (TGS) >9,000 kW
Customer Charge	\$128.21	\$4,246.42	\$19,316.15
Distribution Demand Charges (\$/kW):	\$2.97	\$2.30	\$0.17
Reactive Demand Charge (\$/kVAR)	\$0.50	\$0.50	\$0.50

Delivery Charges	Direct Distribution Connection (DDC)	Street & Private Lighting (SPL)*	Contributed Street Lighting (CSL)*
Distribution: Service & Demand (per day per connection)	\$0.162890	-	-
Energy (per day for each KW of effective load)	\$0.784581	-	-

* See Rate Schedules for details of monthly charges per fixture.

Residential customers can compare their monthly usage with the chart below to see how these rate changes, as proposed, will affect their bills:

**In the Matter of the Petition of Atlantic City Electric Company for Approval of Rate
Adjustments Pursuant to Its Infrastructure Investment Program (11/2020)
BPU Docket No. ER20110694**

PLEASE TAKE NOTICE that, on November 2, 2020, Atlantic City Electric Company ("ACE" or "Company"), a New Jersey public utility, filed a petition with the New Jersey Board of Public Utilities ("Board" or "BPU"), in BPU Docket No. ER20110694, seeking the Board's approval of proposed changes to rates to provide for cost recovery of certain costs associated with the Company's Infrastructure Investment Program ("IIP") ("Petition"). ACE's IIP was established pursuant to the Board's Infrastructure Investment Program regulations, N.J.A.C. 14:3-2A.1 et seq. and is focused on accelerated investments to bolster electric distribution system reliability, storm resiliency, and safety. The Company's IIP was authorized by a Board Order issued on April 18, 2019, effective April 28, 2019, in BPU Docket No. EO18020196. The Order approved an IIP consisting of \$96.46 million, plus associated Allowance for Funds Used During Construction, in investments to be recovered pursuant to a cost recovery mechanism known as Rider IIP. The investments are to be made over the four-year period beginning July 1, 2019 through June 30, 2023.

ACE's Rider IIP provides for recovery of the annual revenue requirement associated with IIP projects that have been completed and placed into service during specific review periods. The Company requested that the Rider IIP rates set out below become effective for service rendered on and after April 1, 2021. If the Board approves this request, the monthly bill for a typical residential customer (using approximately 679 kWh/month) will increase by \$0.25 or approximately 0.19%.
